

FOGO Solutions Named to Inc. 5000 List of Fastest Growing Companies

Carrollton, GA, September 2022 -- FOGO Solutions is thrilled to announce that we have been recognized on the 2022 Inc. 5000 list of fastest-growing private companies in the United States. The list represents an exclusive look into the nation's most successful private businesses and plays an important role in the measuring of entrepreneurial achievements.

“We are honored and proud to be named on the Inc. 5000 list,” said Richard M. Haney, CEO of FOGO Solutions. “Our growth rate speaks volumes about the trust our clients have put in us and the hard work our team has put into delivering expert IT solutions.”

For decades the prestigious list has been a place where household names such as Pandora, Microsoft, and Under Armour first made their mark and were honored for their entrepreneurial successes. The companies of this year's Inc. 5000 list have proved especially resilient and flexible given unprecedented challenges, such as labor shortages, supply chain challenges, and the ongoing impact of COVID-19.

FOGO Solutions being honored on the Inc. 5000 list demonstrates the significant growth faced over a three-year period. Through its solutions, FOGO has delivered the best of information technology, cloud data services, and digital marketing to their growing number of clients around the world. FOGO Solutions earned a spot at No. 3,367 on the reputable list and achieved an incredible 3-year revenue growth of 156%.
